The screenshot displays a Windows desktop environment with a web development interface. At the top, a browser window shows the URL `127.0.0.1:5500/2/assign_t11.htm`. The main area is a code editor with the file `assign_t11.htm` open. The code contains several lines of HTML and some complex, obfuscated JavaScript or CSS. Below the code editor is a browser preview window showing a dark-themed image of a person's face. The bottom of the screen features a standard Windows taskbar with various pinned icons.
